

## **GRANT REVIEWERS NEEDED FOR SHORT, RESEARCH PROPOSALS WRITTEN BY HIGH SCHOOL STUDENTS**

***The New Jersey Academy of Science's Grants-In-Aid Program requests  
your help to review a few, short research proposals***

The Junior Division of the New Jersey Academy of Science (NJAS) sponsors a Grant-In-Aid (GIA) Program whereby students in grades 9-12 submit a 4 page research proposal seeking funds for their proposed science or math experimental projects. Annually, NJAS awards grants up to \$150 to the highest ranking proposals to fund supplies and equipment for these student projects.

This call for proposal reviewers asks that you agree to review a couple 4 page research proposals. Proposals are sent out for review by late December 2013, and reviewer's rankings are due back mid-January 2014. Reviewers who agree to evaluate proposals receive the student proposals as an email attachment from NJAS, along with the numeric scoring sheets and preset evaluation criteria. Once the proposals are judged, all you the reviewer need to do is email NJAS back your scoring sheets.

If you feel you would like to participate in this rewarding program or wish to know more, please email NJAS President Roberta Batorsky at: [roberta.batorksy@gmail.com](mailto:roberta.batorksy@gmail.com)

***When emailing your agreement to serve as a reviewer, please include the following information: your name, email address and phone number as well as area(s) of expertise (select as many as you wish from the list below)***

Biochemistry	Molecular/Cell Biology	Botany
Microbiology	Mathematics	Physics
Chemistry	Neuro/Physiology/Medicine	Genetics
Engineering	Marine Biology	Geology/Meteorology
Zoology/Animal Behavior	Environmental Science/Ecology	Computational Sci/Math
Psychology/Human Behavior		

Thank you for your consideration,  
Eric Iannacone, GIA Program Chair
